SUMMARY

Aspiring game developer passionate about creating engaging and immersive gaming experiences by combining creativity, design, and technology. I enjoy turning ideas into interactive experiences that captivate and inspire players.

EDUCATION

University of Central Punjab (UCP) **Lahore, Pakistan**
BS Computer Science **Oct 2022 – Current**
Relevant Courses: Programming Fundamentals, Object-Oriented Programming, Data Structures and Algorithms, Database, Design and Analysis of Algorithms, Artificial Intelligence, Cloud Computing, and Game Development.

PROJECTS

The Manor Cycle (A Survival Horror Game Mobile & PC) **Feb 2026 – Current**
- Developed a procedural generation system that creates unique, randomized manor layouts for every gameplay cycle.
- Engineering adaptive Director AI using behavior trees to evolve enemy tactics based on real-time player actions.
- Building scalable mission and inventory frameworks optimized for seamless performance across mobile and PC platforms.

Boot Stomping (Hyper Casual Protest Game) **July 2025 – Aug 2025**
- Developed Top-down, hyper-casual arcade game symbolizing protest and unity through crowd mechanics.
- Focused on collecting good people while avoiding the falling boot and negative characters.
- Contributed to programming, UI design, and some artwork to enhance player experience.

Echoes of Vengeance – Chapter 1 (Unity, PC) **Jan 2025**
- 2D side-scrolling Game set in a 3D medieval world featuring stealth and puzzle-based gameplay.
- Includes vision and sound-based enemy detection, chase sequences, and a boss encounter.

Bazooka Blast (Hyper Casual Game) **June 2024 – Aug 2024**
- Hyper-casual physics-based arcade game developed during the M-Labs Summer Internship.
- Designed and programmed gameplay mechanics, levels, and enemy behaviors using Unity and C#.
- Focused on integrating physics-driven interactions for smooth and engaging player experience.

Ball Runner Game (Web Based) **Jan 2024 – Feb 2024**
- Developed Ball Runner Game, an endless runner inspired by Dino Runner, featuring a startup screen, interactive UI, obstacle generation, and a scoring system using HTML, CSS and JavaScript.

OTHER PROJECTS

- Developed *Endless Wheels* (Android) and *Space Shooter* (PC) in Unity, a *Player vs Zombies* console-based C++ game, and a personal portfolio website in React.

ACHIEVEMENTS

2nd Place – Boot Stomping (by Pakistan Games Collective × M-Labs) **Aug 2025**
- Awarded for creativity and execution in the jam theme *"All Things Desi."*

Best Physics Game Award – Bazooka Blast (by M-Labs) **Aug 2024**
- Recognized for implementation of Best Physics of the jam theme *"Slingshot Mechanic." Out of 800+ submissions.*

TECHNICAL SKILLS

- Unity (Game Engine)
- C#
- C++
- Python
- JavaScript
- React
- HTML
- CSS
- SQL
- Blender
- Adobe Illustrator
- MS Office

SOFT SKILLS

- Problem Solving
- Detail Oriented
- Time Management
- Team Work
- Logical Thinking
- Communication Skills

INTERESTS

- Playing and Developing Games
- Watching Anime
- Exploring New Technologies
